1

AUSTI WITHOUT THE PRICE TAG

This is ideal if you want to live in Austinmer in a new built one bedroom house without the massive price tag. Ideally situated on a normal size block this would be great if you are retired and want to be by the beach. Park the caravan in between trips and live basically but in a modern setting, or get in at a base price and renovate to a bigger property later. A must see.

Land size: 588 square metres

Price:

\$580,000
