1

Large Block, Large Views

This is one of the few larger blocks that still maintain massive views of the coast, all the way down to Port Kembla. Properties with this much potential don't happen that often, with approximately 24 meters of frontage on a near level block, for a property on the escarpment this is rare. Yes, it does have work needing to be done, but come and look at the opportunities.

Land Size - 765m2 (approx.)
